

## Why is a free vaccine important?

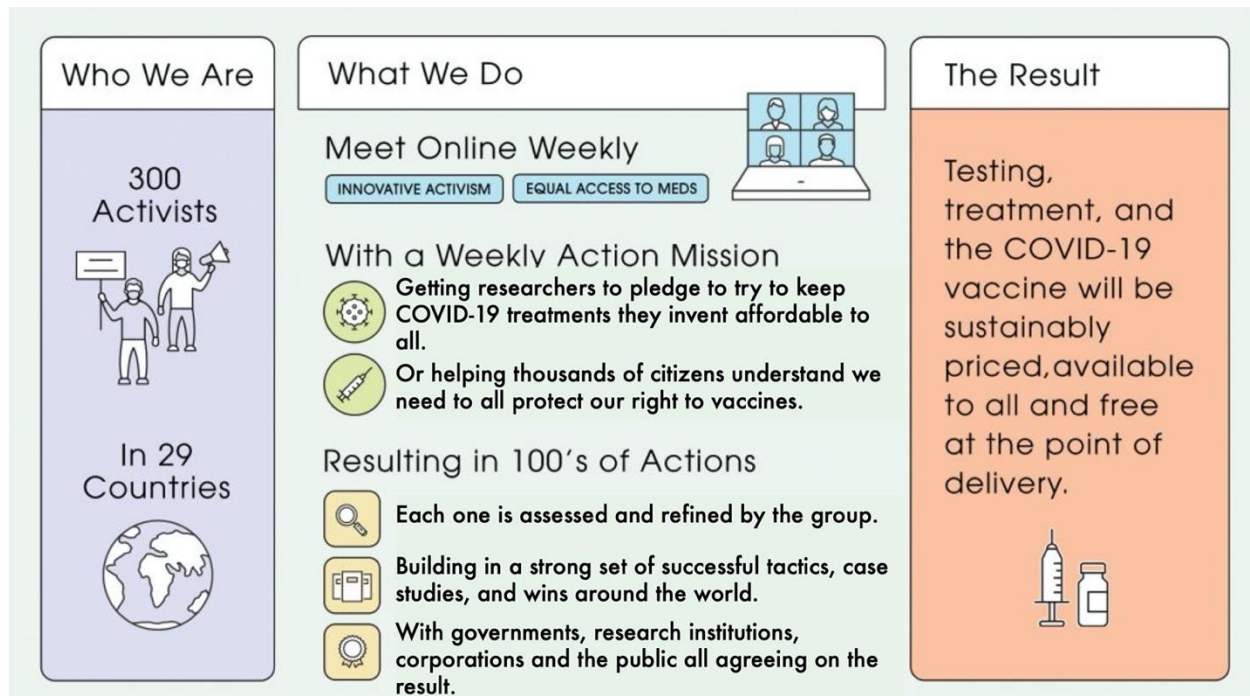

To end the pandemic, everyone, rich or poor, insured or not, will need to be protected from COVID-19. This can only be possible if the final price of any vaccine is affordable to the governments of poor and rich countries alike and their citizens can get it free of charge.

## Opportunities for Action

[Click here](#) to sign the the Universities Allied for Essential Medicines (UAEM) petition to make vaccine and diagnostic tools for COVID-19 available to all and [here](#) to sign the Doctors Without Borders petition *Public Funds should be for Public Health*.

At this time, other advocacy actions in support of COVID-19 vaccine, treatment and technologies, will be undertaken on behalf of GRAN by the Access to Medicines Working Group and the Prairies Regional Leader who are participating in the *Free the Vaccine* campaign.
